

Statement Regarding RoHS 2011/65/EU Compliance

January 14th, 2015

To Our Valued Customer,

CPC manufactures quick disconnect couplings and connections made from a variety of metal, plastic, and elastomeric raw materials. This statement is to clarify the position of Colder Products Company's **FitQuik® Connectors Product Line** on compliance with "**The Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment (European Council Directive 2011/65/EU)**," commonly referred to as "RoHS 2."

According to information provided from either our suppliers or raw material manufacturers, the materials and manufacturing processes used to produce our FitQuik® do not possess levels of cadmium, lead, mercury, hexavalent chromium, PBB or PBDE beyond acceptable limits as identified in the RoHS 2011/65/EU regulation. Please be aware that Colder Products Company does not test products for these substances, and relies on declarations from our suppliers for conformance assurance.

The FitQuik® RoHS Compliant Product List can be downloaded from CPC's website [here](#).

Thank you for your interest in CPC quick disconnect couplings and connections. CPC looks forward to continuing our support of your application(s).

Sincerely,

Elizabeth Lamb
Project Coordinator, Medical
