## Statement Regarding EU REACH (SVHC) Compliance

To Our Valued Customer,

CPC manufactures quick disconnect couplings and connections made from a variety of metal, plastic, and elastomeric raw materials. This statement is to clarify the position that the items located within this downloadable spreadsheet are compliant with the EU regulation 1907/2006 known as the **EU Candidate List of Substance of Very High Concern (SVHC)**, commonly referred to as “**REACH**.”

According to information provided from either our suppliers or raw material manufacturers, as of the date listed [on this document](#) it is believed these items found on this list do not contain any of the substances or chemicals listed on the EU Candidate list of SVHC’s at levels greater than 0.1%. Please note that CPC has not specifically tested these items for all of these substances within the products, and we are relying on information presented to us from our suppliers to make this determination.

Thank you for your interest in CPC quick disconnect couplings and connections. CPC looks forward to continuing our support of your applications.

Sincerely,

Tim Jacobson  
Senior Product Manager
